St. Afterschool starts Monday, October 8 <sup>th</sup> from 3pm till 6pm 						

## \*September 3<sup>rd</sup> - Labor Day

Labor Day in the United States is a public holiday celebrated on the first Monday in September. It honors the American labor movement and the contributions that workers have made to the strength, prosperity, laws and well-being of the country. It is the Monday of the long weekend known as Labor Day Weekend and it is considered the unofficial end of summer in the United States. It is recognized as a federal holiday.

Peter McGuire or Matthew Maguire is the Creator of Labor Day. Peter J. McGuire, was an active labor organizer. He was also general secretary of the Brotherhood of Carpenters and Joiners and a co-founder of the American Federation of Labor. He was believed to be the first to suggest a day be dedicated to American workers and their accomplishments. Matthew Maguire however, was secretary of the Central Labor Union in New York in 1882 and many believed that he proposed the holiday in 1882.

## \*September 11<sup>th</sup> - 9-11

I doubt anyone will ever forget where they were on the morning of September 11, 2001, when they heard of the attacks on the twin World Trade Towers in NYC and the Pentagon in Washington. This horrible and tragic day is etched forever in our memories. Like the attack on Pearl Harbor that brought us into World War II, the 9/11 attacks led us into a new war... the war on terrorism. It also touched and changed forever, the lives of each and every American.

### 911 History:

- On the morning of September 11, 2001, nineteen Islamic al-Qaeda militants hijacked four planes. The hijackings occurred from Boston, Newark and Washington airports. The planes selected were long distance flights, which would have more fuel in the tanks.
- One plane each hit the north and south towers of the World Trade Center in New York city. The planes and engulfing firestorm, ultimately brought down both towers.
- A number of other buildings were also damaged or destroyed. Most notably was the Marriott hotel, which was also destroyed.
- A third plane hit the Pentagon in Washington, DC.
- The fourth hijacked plane ultimately crashed in a field in Shanksville, PA. Passengers on the plane learned of the fate of the other planes, and unsuccessfully attempted to take back control of the plane from the suicidal the hijackers. Everyone aboard died.
- In total, thousands were killed.

## \*September 23, 2018 Fall Begins

The Autumn Equinox signals the beginning of Fall. It is the point where there is exactly 12 hours of daylight and 12 hours of darkness at the equator. If you live anywhere else, however, you will see a little bit more or a little bit less than 12 hours of daylight. The daylight hours are dwindling and will continue to do so until we reach the Winter Solstice, the shortest day of the year and the start of winter. It is also a time to celebrate with a variety of Fall and Harvest Festivals. People enjoy fall festivals as they sense the closure of a great summer season and the coming of a long winter. The fall festivals are the last of the outdoor events until spring.
